

## Newton

### Rain jacket, ARC protection (APC2)

7240A2LK2

The Newton offers high-quality protection against the natural elements and industrial hazards. This anti-static raincoat with class two arc protection is very functional with two loops for gas detection meters and different pockets both on the inside and outside. Despite the high degree of protection, this is still a remarkably light coat. The wearing comfort is increased by the presence of the elastic narrowing in the back. Touch and close fastening can be used to narrow the sleeves, and a hood (sold separately) can be attached to the standing collar.

### Colours

- Blue (BS0)

### EU Size

S-XXXL
